ABOUT THE COURSE

Changes occur rapidly in the fields of HIV and Hepatology. This course is designed to provide practitioners with the most up-to-date clinical information on a variety of topics to assist in their care of patients living with HIV and/or Hepatitis C. Presentation formats include didactic sessions and interactive case presentations, followed by subsequent question and answer periods.

COURSE OBJECTIVES

After attending the course, participants should be able to:

• Describe the new classes of direct-acting antivirals (DAAs) available for treatment of chronic HCV.
• List the antiretroviral medications which can safely be used with the new hepatitis C direct-acting agents (DAAs).
• Discuss the current standards of care for initial and preferred therapy for HIV infection.

TARGET AUDIENCE

The symposium will be of interest to physicians, physician assistants, nurse practitioners, registered nurses, pharmacists, social workers, mental health practitioners, and case managers who care for those infected with HIV and Hepatitis C.
