**Surveillance Culture Specimen Collection** (See Infection Control Policy # 4 Multi-Drug Resistant Organisms)

**Nasal Swabs** (See *Eye, Ear, Nose, Throat Specimen Collection*)

**Perianal/perirectal swab**
Swab around the external rectal orifice. If visible stool is not obtained on the swab, insert it a few millimeters into the rectum until visible stool is obtained.

**Sputum** (See *Respiratory Specimen Collection Guidelines*)

**Urine** (See *Urine Specimen Collection - General Considerations*)

**Wound** (See *Skin, Bone and Wound Culture Specimen Collection*)
