Welcome to the Department of Surgery at Albany Medical Center. We are proud to be part of Albany Medical Center, which incorporates Albany Medical College and Albany Medical Center Hospital. The Medical Center is the only academic health sciences center in the 25 counties of eastern New York and western New England. The center incorporates a 651 bed Albany Medical Hospital, one of New York's largest teaching hospitals; Albany Medical Center College, one of the nation's first private medical schools. Albany Medical Center is the largest private employer in the Capital District Region, employing over 5700 employees. In 2008 we admitted more than 31,000 patients and performed more than 25,000 operations. The Department of Surgery is comprised of 9 Divisions with a continued strong leadership in the Divisions within the Department of Surgery:

- Cardiothoracic Surgery: Lewis W. Britton, MD
- General Surgery: David J. Conti, MD
- Neurological Surgery: John A. Popp, MD
- Otolaryngology: Steven M. Parnes, MD
- Orthopedic Surgery: Richard L. Uhl, MD
- Pediatric Surgery: Burton H. Harris, MD
- Plastic Surgery: Jerome D. Chao, MD
- Urology: Barry A. Kogan, MD
- Vascular Surgery: R. Clement Darling, III, MD

Our medical center continues to expand in recruitment of top-ranked surgeons who have been recruited to the Medical Center. Since our last report, we have recruited surgeons in Minimally Invasive Surgery, Colorectal Surgery, Neurologic Oncologic Surgery, Orthopedic Spine Surgery, Pediatric Otolaryngology, Plastic Surgeons and Vascular Surgery. This annual report highlights some of our academic accomplishments and the success our Resident trainees have had in obtaining fellowships and career positions. I hope you will see what I see; a vibrant department with faculty committed to patient care, education and research. After 3 years as Chair, I am more proud than ever of our Department of Surgery. I am proud of its distinguished history, continued dedication to patient care, education and research.
