Dubins’ Memorial Lectureship
The Dubins’ lectureship was established in 1983 to honor the late Henry B. Dubins, a caring and generous member of the clinical faculty of the Department of Ophthalmology at the Albany Medical College. Dr. Dubins was a leading figure in the ophthalmology community for more than 30 years, serving as Chief of the Ophthalmology Department at Child’s Hospital and President of the Eastern New York Eye, Ear and Throat Society.

This year marks the 30th Annual Dubins’ lecture. This year’s Dubins’ lecturer is Douglas R. Anderson, MD, FARVO, Bascom Palmer Eye Institute, Professor emeritus of Ophthalmology and Douglas R. Anderson Distinguished Chair in Ophthalmology, Dept. of Ophthalmology, University of Miami Miller School of Medicine. Before joining the faculty in Miami in 1969, he obtained an MD degree at Washington University in St. Louis, had a rotating internship at University Hospitals of Cleveland, was Staff Associate at the National Cancer Institute, undertook residency at the University of California in San Francisco, and was a fellow for one year at the Massachusetts Eye and Ear Infirmary. His laboratory research has been focused on axonal transport and blood flow regulation in the optic nerve, and other academic interests have dealt with normal tension glaucoma, ocular hypertension, visual fields, clinical evaluation of the optic nerve, and the use assessment of the fundus by optical coherence tomography. By way of disclosure, he is a consultant for Carl Zeiss Meditec, Inc., Dublin California.
