Comprehensive Care for Sports Concussions

CLINIC DEDICATED TO KEEPING AREA ATHLETES SAFE

Albany Medical Center sports medicine experts offer patients unparalleled treatment and management of sports-related concussions. Certified to use ImPACT, the latest concussion technology, our experts confidently diagnose, treat and manage both adult and pediatric cases.

Our Experts

Hamish Kerr, MD
Dr. Hamish Kerr is trained in sports medicine, internal medicine and pediatrics. He is an expert in the management of sports injuries, especially concussions. Dr. Kerr is certified to use ImPACT, a research-based neuropsychological testing program that helps clinicians evaluate sports-related head injuries and is a standard tool for professional and college athletic teams across the country.

Deborah Light, MD
Dr. Deborah Light sees both adults and children for a wide variety of sports-related conditions, including concussions, musculoskeletal injuries, performance optimization and injury prevention. She is trained in the use of diagnostic and interventional musculoskeletal ultrasound, and is able to offer this safe and effective approach to her patients. She also is trained in the use of ImPACT, and also provides gait analysis for running.

John Pugh, MD, PhD
Dr. Pugh is a pediatric neurologists who treats children up to age 16 for general neurological conditions including seizure disorders, movement disorders, developmental delays, and headaches. Within the sports concussion clinic, Dr. Pugh is responsible for assisting Dr. Kerr and Dr. Light in testing patients for concussions.

Louann Kuntz, PT, DPT, MEd, ATC
Dr. Kuntz is the manager of Albany Med’s Outpatient Physical Therapy Department. Dr. Kuntz specializes in sports related rehabilitation. She recently established a Center for Excellence in balance assessment and training, vestibular, and concussion-related injuries.

ImPACT Advantages

Measures symptoms including:
- Attention span
- Verbal and visual memory
- Non-verbal problem solving
- Processing speed
- Response variability
- Reaction time (measured to a 1/100th of a second)
